

## Invitation to elected Members of the South East Fire and Rescues Services Regional Management Board

### Development Workshop

A residential Development Workshop for the Members of the Regional Management Board delivered by the IDEa and funded from the Capacity Building Fund.  
12.30 pm September 11<sup>th</sup> – 1pm September 12<sup>th</sup> 2007

#### Venue

Held in the Culpepper Suite in the prestigious Leeds Castle, Kent, the event includes overnight accommodation and dinner in the evening.

#### Objectives

To meet together in an informal setting, giving Members an understanding of themselves and their colleagues and how this understanding can help deliver the aims and objectives of the board.

#### Workshop Outline

The process starts with an exercise looking at delegates individual working styles before focussing on how individual styles can contribute to successful partnership working.

Delegates will receive and be guided through a note on their preferred style by IDEa consultants and accredited elected member peers. The detail of which will remain confidential unless a delegate chooses to share it.

Finally delegates will explore how the headline findings, preferred ways of working and an appreciation of each person's approach to the team, can enhance the effectiveness of RMB and collaborative working.

Delegates will have ample opportunities for informal discussion and networking in a relaxed setting.

#### What are the benefits of attending?

Through gaining an insight into individual strengths, motivation and preferred ways of working and an appreciation of each person's approach to the team the event:

- will enhance the effectiveness of RMB and collaborative working
- can be applied to other council activity
- will identify opportunities for further personal or team development.

**Marianne Abley, IDEa Regional Associate, will provide a short briefing and discuss the event at 12th July RMB.**
